INFORMATION DISCLOSURE STATEMENT

Dear Sir:

- 1) Pursuant to 37 C.F.R. §§ 1.56, 1.97 and 1.98 applicant encloses a Form PTO-1449, a copy of reference AE cited thereon, English abstracts for references AC and AD, and a copy of the International Search Report issued on January 24, 2005 in the corresponding PCT International Application. Copies of references AC and AD are not (and need not be) enclosed, because they have been transmitted to the USPTO by the International Searching Authority in the International processing of this PCT application.
- 2) This Information Disclosure Statement is being filed simultaneously with the above identified new patent application.

4) References AA and AB are in English. Reference AC corresponds to AA and references AD and AE correspond to AB, from which the relevance can be determined in English. Therefore no further discussion of the references is necessary.

5) Moreover, the enclosed Search Report indicates the degree of relevance of references AC and AD by category ("X" means relevant to anticipation or obviousness when considered alone; "P" means published prior to the international filing date but later than the priority date claimed; and "A" means technological background). Thereby a concise explanation of the relevance has been provided (see MPEP §609).

6) The Examiner is requested to consider all references of record, return an initialed copy of the enclosed Form PTO-1449 and ensure that all references of record are printed on any patent issuing from this application.

Respectfully submitted,  
Arndt GLAESER
